## **AMENDMENTS**

## To the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 6 (Currently amended). A method for treating and controlling local lesions and systematic symptoms caused by autoimmune reactions selected from diseases consisting of lupus erythematosus and hyperthyroidism, said method comprising the step of administrating to a patient in need thereof a pharmaceutical composition comprising as the only active agent an effective amount of N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof.

Claim 7 (Previously presented). A method according to claim 6, wherein said pharmaceutical composition is a preparation suitable for intravenous injection, subcutaneous injection, intramuscular injection, intra-peritoneal injection, or oral administration.

Claim 8 (Previously presented) A method according to claim 6, wherein the dose of said pharmaceutical composition for an adult patient is 1-100000 mg per day based on the active component.

Claim 9 (Previously presented) A method according to claim 7, wherein the dose of said pharmaceutical composition for an adult patient is 1-100000 mg per day based on the active component.
